Listed below is last I had heard from management regarding retaining security.

This will not be a quick process. Even after emergency actions are determined the RI/FS work will be used to develop full list of PRPs then allocation will take even longer to determine. This process will most likely take years. Management call if we should release.

I agree with Neal's assessment.

Hello Lindie & Shayne

Has the question been answered whether the lease site is part of the cleanup action area? If it is not part of the cleanup action area I believe it would be OK to release the bond. Otherwise we should retain the bond until cleanup is completed and we know the allocation for all PRP's.

Hello,

I have another phone call from Mr. Rodger Jensen regarding releasing his performance security.

EPA said that they couldn't tap into this security.

Are we going to retain this security until after EPA assigns liability for the site?
If so, when do we expect EPA to assign liability?

Subject: Release of Savings Account Assignment Form

Hello,

I work with the Development Services portion of the Washington State Department of Transportation and have been requested to release an Assignment of Escrow Account for Wilkins Distributing Co., Inc. (Roger Jensen, owner). We have a \$2,000 Assignment for the WSDOT project that we will be releasing.

I also received a copy (see attached) of a DNR Savings Account Assignment Form that references Agreement No. 22-002716 for \$2,000 (from 11/13/1991). I'm not aware of your process, but if you could try to contact Mr. Roger Jensen at (360) 981-1339 (cell) to discuss his request to release, I would appreciate it.

I did leave a voice message with Mr. Jensen stating that we (WSDOT) are not able to release a Dept. of Natural Resources Assignment and that he should contact whomever he dealt with at the Dept. of Natural Resources.

Please let me know if you have any questions about this e-mail.

Thanks!
